INTRODUCTION

SAYHAN INTERNATIONAL has grown into a leading Consultancy and EPC firm, recognized for its commitment to excellence, innovation, and reliability. Over the years, we have successfully expanded our capabilities to provide end-to-end solutions— from concept and design to execution and commissioning — across diverse sectors. Driven by separate team of experienced professionals and technical experts, we combine strategic consultancy expertise with robust engineering and project delivery capacity. Our integrated approach ensures that every project is completed efficiently, safely, and sustainably, meeting both client expectations and international standards.

Since our inception, we have built a strong track record of delivering high-value consultancy services and turnkey EPC projects for government, private, and development organizations. Our steady growth reflects our dedication to quality, innovation, and long-term client partnerships, positioning us as a trusted name in the industry.

MISSION

Our mission is to deliver innovative, sustainable, and high-quality engineering and consultancy solutions that create lasting value for our clients and communities. We strive to integrate technical excellence with efficient project execution, ensuring every assignment is completed safely, on time, and within budget. By combining deep industry expertise, advanced technology, and a commitment to integrity, we aim to be a trusted partner in shaping infrastructure, driving progress, and supporting sustainable development across all sectors we serve.

VISION

Sound operational policies, a management team philosophy and the fostering of relationships with clients, suppliers, business partners and staff, collectively support our ability to meet client requirements. Our main objective is to continue contributing to the modernization of Bangladesh with a focus on the needs of the coming century.

STRENGTH

SAYHAN INTERNATIONAL is founded with the aim of enhancing all aspects of life for the customers with powerful brands, reliable products and consistent service.
